The story of the Odum Scout Trail is the story of a great scouting adventure. An adventure that began in the early 1960's when compass reading, ax swinging boys hazed the trail along the crest of the highest hill, 4,000 mountain range in the deep south. The adventure that continues as more scouts come to challenge the rugged 10-mile trek beginning at Cheaha State Park and winding toward High Falls at Pyriton.

Along the way are breath-taking scenes, abundant flowers, unusual geological formations and interesting wildlife.
