Canoeing Camping Fishing

Perhaps you would like to rise early some morning and drift quietly down a slow moving stream with overhanging trees hiding the young deer as they come down to drink at the water's edge.

Think of the thrill of gliding so silently down some lonely stream, feeling the cool breeze of twilight, stopping to catch your evening meal of fish, and then finally, after a meal cooked over glowing coals, you roll into your sleeping bag for a good night's sleep. Then up in the morning to continue your trip on the sunlit, rippling waters of a mighty river!

Heads up, boys! White water ahead! Canoe blades flashing in the noontday sun, shooting through raging rapids, white foam arising around you, and then... you're safe as you pass into another quiet pool of the river.

Think of the ADVENTURE, fellows! Would you like to participate in these and other thrills?

Take this folder to your unit leader and have him ask for further information and applications, TODAY! Facilities are limited, so, get your applications in NOW!
